

Flanged ball valve spheroidal graphite cast iron actuator type EK04

description:

Flanged ball valve in spheroidal graphite cast iron with electrical actuator. Ball made of cast steel chromed to shut off pipeline systems.

features:

- suitable for neutral and not neutral **gaseous & liquid media**
- ETL electronic torque limiting
- AVS automatic voltage sensing
- ATC automatic temperature control
- emergency operating
- visual position indicator
- 4 limit switches (2 for motor adjustment, 2 for response)

connection:

DN25 – DN150

construction:

Full port design

pressure:

0 – 16 bar

Maximum differential pressure 7 bar

design:

body:

ball:

ball seal:

Stem- & body-seal:

nominal diameter:

temperature:

flanged ball valve with electrical actuator

Spheroidal graphite cast iron 5.3103

cast steel chromed 1.0503

PTFE + GF

FKM

acc. DIN EN 558-1 R14

generally -20°C to +180°C (depending on working pressure)
(more than 70°C coupler+bracket must be used)

body actuator:

plug connection:

temperature:

mounting pad:

power supply:

mounting position:

corrosion resistant synthetic body

external acc. to DIN 43650

generally -20°C bis +70°C

acc. to ISO 5211

Actuator S 24-240V AC/DC

free, not upside down

***dimensions DN80 & DN100 & DN150 with bridge**

Flange ball valve with electrical actuator

voltage: 24-240V AC/DC

seal: PTFE + GF

size: DN25

Please note:

Actuator must be bigger, if used with non-greasing media (e. g. water). Please contact us for a configuration.
