

Position indicator TYPE PR01

description:

Compact limit switch box made of PA6 with mechanical cherry micro-switch D44x, for direct mounting on actuators.

Article number:

PR01000000

cover:

Polycarbonat transparent

housing (base):

Polyamid PA6 black

axis:

Polyamid PA6

seal:

TPE+NBR

screws:

1.4301

temperature:

-25°C to +80°C

voltage range:

24V / DC max. 2,5A | 250V / AC max. 10A

protection class:

IP67 VDE 0470 / EN60529

indication and switching range:

2D position indicator 0...90°, switch points adjustable

signal:

open + closed

mounting position:

optional

mounting measurements:

VDI/VDE 3845 for flange facing 80mm x 30 mm

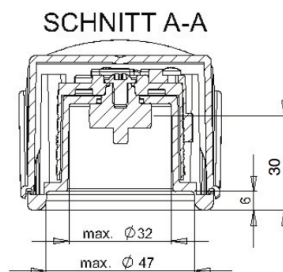

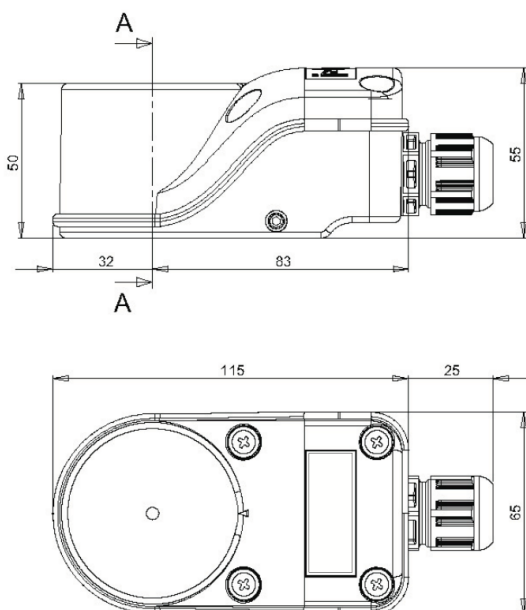

cable gland:

Cable gland M20x1,5, clamp range 6-12mm

note:

Compact limit switch box for direct mounting on actuators up to GTD/GTE 110

dimensions in mm:
