

2/2-way solenoid valve brass high pressure type MV10

description:

2/2-way solenoid valve made of brass for high pressure applications. Ideal for machine and plant engineering. This valve switches at 0 bar (direct acting).

features:

- Suitable for **liquid & gaseous, neutral and not neutral media**
- Mounting position: any, preferably solenoid above

connection:

1/8", 1/4", 3/8" inch

control:

direct acting

function:

NC – normally closed

pressure:

0,0 – 120 bar – depending on design
